

2006 CVC Strategic Plan

Mission

CVC focuses on assessing and addressing the evolving needs of indigent veterans and their families living in Washington State. In addition, CVC assists counties to improve the quality of life for those who have served our country by enhancing the delivery of veteran resources and services.

Vision

In the best of all worlds, where we'd like to be in 10 years.

- A group that has a statewide data base of indigent or at-risk veterans receiving services through counties
- Organization with funding sources
- A national model that represents veterans with one voice across the state
- An agent for pursuing federal funds for veterans residing in Washington State Counties or regions
- Increasing membership with younger participants
- All 39 counties represented and meeting monthly
- Include other organizations as partners
- Important regional collaboration projects happening
- Increasing tax base for counties with more state and federal funding for veterans
- CVC more visible in positive ways
- Build on expertise and relationships for veterans
- Educate others about the Veterans Assistance Fund (VAF)
- Annually on the WACO and ASAC agendas

2005 Accomplishments

- **Legislation Goal:** Governor signed legislation, HB-1189 became law.
- **Outreach Goal:** Put into motion during 2005 CVC Conference with four (4) regional breakout sessions. The four regions have been asked to hold follow-up meetings in their regions.
- **Communication Goal:** Revamping of the CVC web site was 85% complete by end of 2005. It is anticipated the updated web site will be live in March of 2006. Meetings with seven (7) pilot counties have produced a draft MOA between King and pilot counties to be used as a guideline for contributing to maintenance costs of CVC web site. Eleven of 12 monthly meetings minutes are posted on the CVC web site. Two of monthly meeting hosts took minutes.
- **Conference Goal:** 71 participants representing 25 counties attended the 2005 CVC conference in Yakima.
- **Veterans Information System (VIS):** King County continues to communicate with CVC about the status of the VIS project. VIS application development is a King County, in-house undertaking. Once VIS is proven to meet the administrative needs of the King County Veterans Program, King County may begin exploring its applicability for use by other counties throughout the state. VIS is scheduled for completion by end of 2006.
